

# College Mound Special Utility District

## Start or Continue Your Career in the Water Industry

Without Water Operators there would not be potable drinking water for millions of people. Water Operators are essential employees for all water purveyors!

**We are expanding our Field Operations and we need good reliable people to join our team. Whether you're just starting your career, looking for a change in your existing career, or looking to change job locations, you need to talk to us.**

As you can see in the picture below, the job can be difficult and messy and isn't complete until all customers have returned to normal water pressure and the leak is repaired. There is no quitting and starting again tomorrow, the job must be completed before anyone goes home. If systems are maintained properly, this is not an everyday occurrence, there are many other duties of a Water Operator.

Job applications can be found on our website <https://collegemoundwater.com>  
Job applications should be emailed to [cwilson@collegemoundwater.com](mailto:cwilson@collegemoundwater.com)
